A TO Z ROOFING & WATERPROOFING

CHARLES "CHUCK" MCHONE JR.

Whether it's an afternoon summer shower or a full-blown hurricane, St. Augustine buildings have to be prepared for the unexpected Florida weather. So when it comes to your home, you shouldn't just trust anyone. Charles "Chuck" McHone, Jr. started in the construction industry more than twenty years ago and brings a lifetime of experience and expertise to his business. From new construction to St Augustine's historic churches and museums, A to Z has the capabilities to perform work on even the most delicate and intricate buildings.

Chuck's grandfather, father, uncles and cousins all worked in construction. He spent his teenage years learning the basic skills of the trade, from painting applications and siding installation to carpentry and framing. After years of additional training he became a licensed Residential Contractor. Upon seeing the need for qualified roofers in St Augustine, he studied and became a licensed Roofer. Though the company specializes in cedar shake, tile, shingle, and metal roofing as well as many flat roof coatings and waterproofing applications, Chuck's extensive experience and multiple licensing means that he is versed in construction from the ground up and can diagnose your problems and concerns with knowledge on his side.

Since it began, A to Z Roofing has worked hard every day to provide quality service and products to each and every client, and they bring passion and skill to every project. "My team is known for our hometown values and our reliability," says Chuck. "We want to continue being our clients' number one roofer so they can enjoy spending quality time with family while we provide a stress free roof renovation for them."
